

ENTSO-E Baltic Sea Regional Stakeholder Workshop

The next Ten Year Network Development Plan (TYNDP 2014) has taken its first step. But before publishing the plan, we (the TSO's) would like to receive some useful input from you to highlight the common understanding about power system developments in the Baltic Sea region. What do you think are the main challenges in the future electricity system and what is your opinion on our new approach and methodology concerning the TYNDP process? Are you interested? Then please do not hesitate to sign up for the workshop. Further information about TYNDP process can be found at <https://www.entsoe.eu/major-projects/ten-year-network-development-plan/>

Stakeholders are kindly requested to register for a workshop via email, by indicating their full names, contact details, organization to Mrs. Thanh-Thanh Le Thi (Thanh-Thanh.LeThi@entsoe.eu), before 3 April 2013. There is no participation fee.

10th April 2013

10.00 – 15.00h

Crowne Plaza, Copenhagen Towers, Copenhagen, Denmark

Ørestads Boulevard 114 – 118, 2300 København
