

AST GROUP'S STRATEGIC OBJECTIVE

To ensure the security of Latvia's energy supply by delivering continuous, high-quality and accessible energy transmission services, ensuring the sustainable management of state-strategic energy infrastructure and supporting its integration into the European Union's internal energy market.

Strategic priorities 2026–2030

ENERGY SECURITY AND INDEPENDENCE

SUSTAINABLE DEVELOPMENT OF THE ENERGY SECTOR

INTEGRATION INTO THE EUROPEAN ENERGY SYSTEM AND REGIONAL COMPETITIVENESS

Additional information

The AST Group is the backbone of Latvia's energy supply infrastructure. By operating both electricity and natural gas transmission systems, the Group ensures a reliable, continuous and stable energy supply for Latvia.

The Group delivers energy infrastructure development projects that are critically important to the State, strengthening system resilience, security of supply, and national economic stability. By developing transmission networks and introducing modern technologies, the Group ensures Latvia's readiness for future demand, the energy transition and the development of the European energy system.

Horizontal objectives

Financial Sustainability and Efficiency

Employee Growth and Engagement

Technological Development and Innovation

Responsible and Sustainable Operating Principles

Mission and vision

To ensure continuous, secure and sustainably efficient electricity transmission throughout Latvia

A secure and innovative electricity transmission system that serves the interests of the State and promotes the transition to a sustainable and competitive operations

To ensure reliable operation of gas transmission and storage through promotion of energy sector decarbonization and market development

Sustainable gas transmission and storage operator in regionally integrated energy market

Values

Together

Safety and security

Competence

Cooperation

Focus

- 1**
Promote the country's economic growth
- 2**
Promote the development of the energy sector and the transition to climate neutrality
- 3**
Ensure the reliability and development of transmission and storage infrastructure

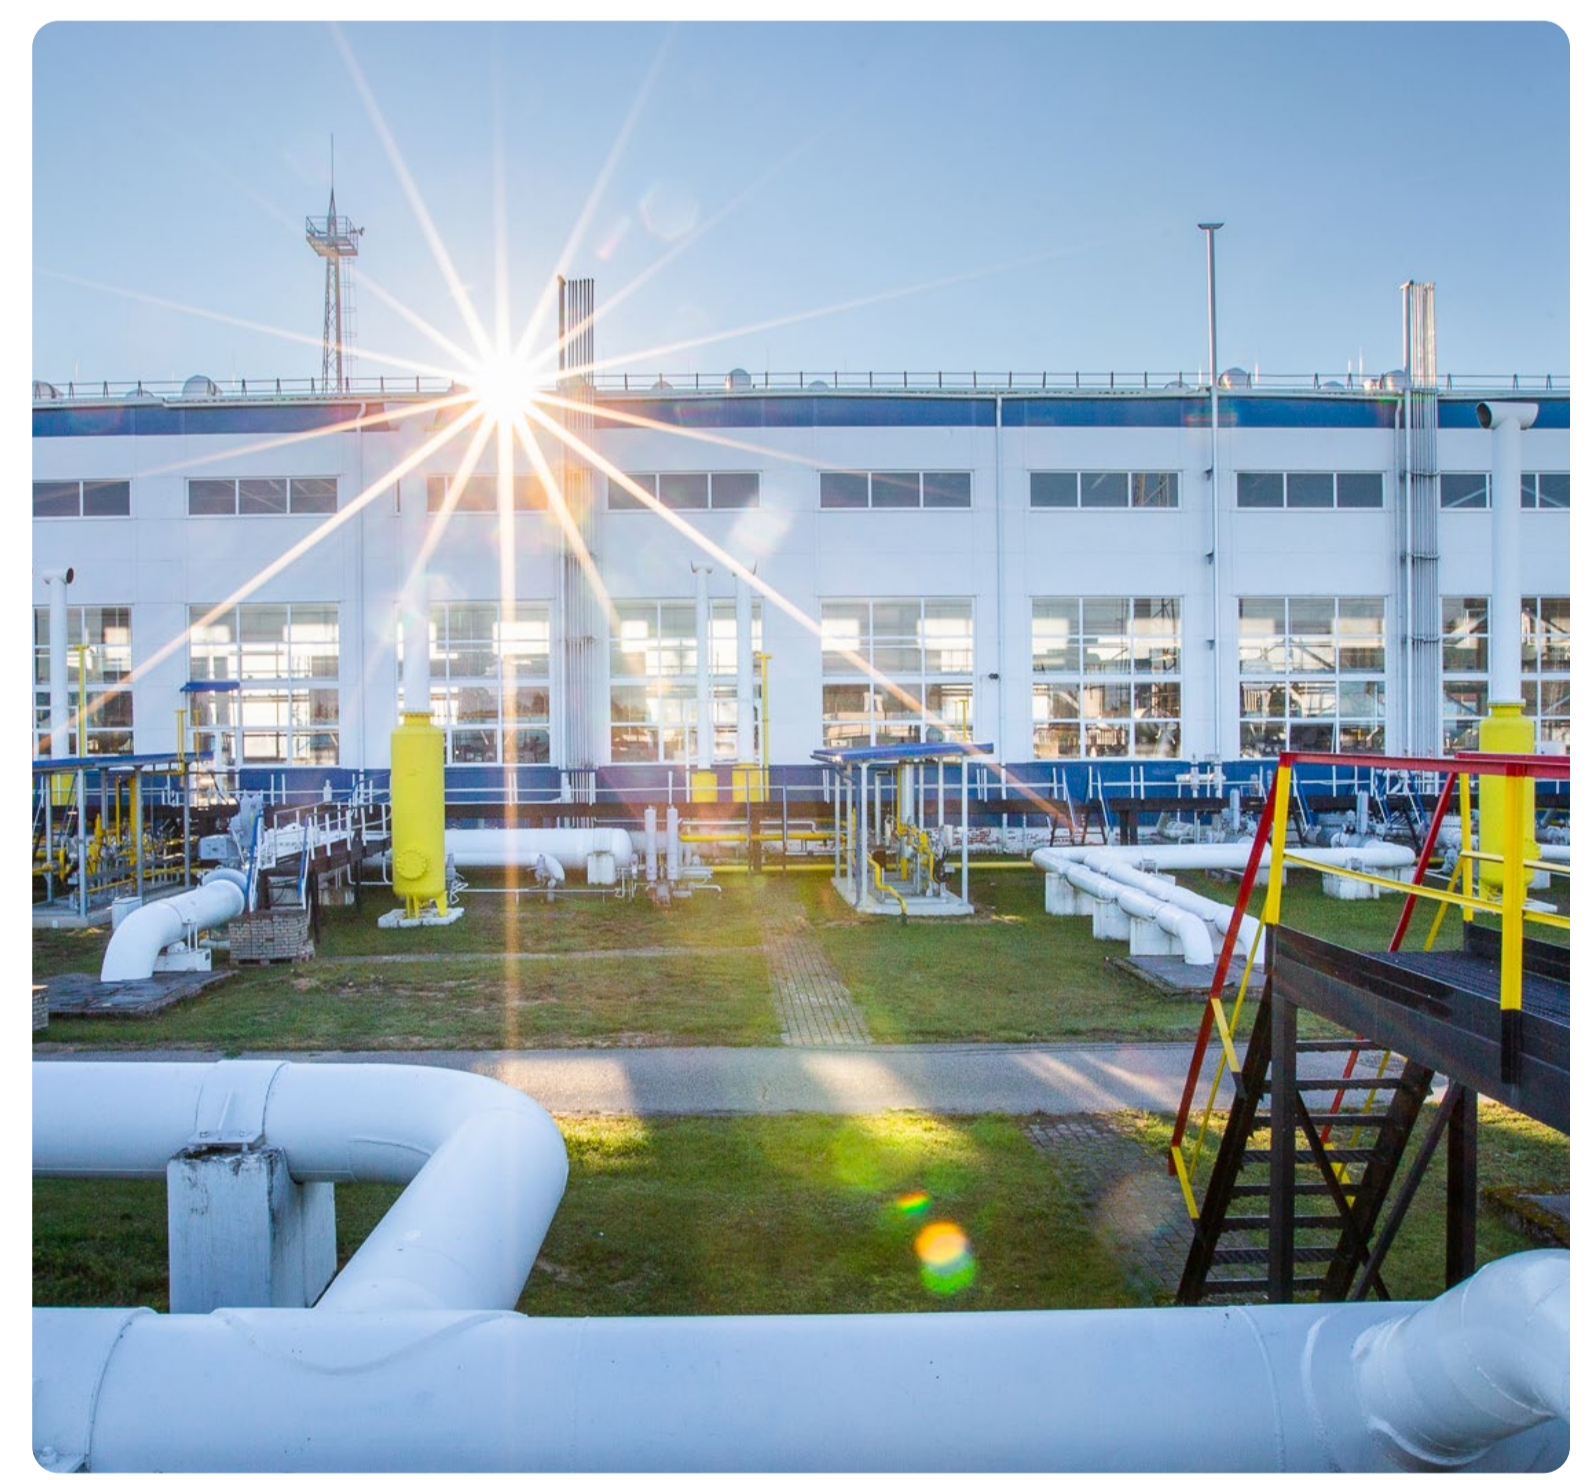

THE CORE OPERATIONS

Electricity transmission

Natural gas transmission

Natural gas storage

The role in the energy sector
